Dear Sir, Dear Madam,

**Subject** : Application for internship in your company

After obtaining my baccalaureate diploma in economy and sociology, I'm now in my first year of BTS (Advanced Technician Certificate) in International Business at the Lycée Auguste et Louis Lumière in Lyon. As part of my training, and in order to strengthen my theoretical teaching in the international field, I am looking for a canvassing trainee for eight weeks starting from 14 May.

During my training, I will have the opportunity to familiarize myself with my future field of practice. The theoretical foundations mainly concern the following areas : customer negotiation and various aspects of foreign markets.

Having the opportunity to pursue an internship in your company would be a chance to gain knowledge and experience and therefore, to forge a first meaningful practice. Desiring to boost my achievements, particularly in English, I believe that joining your company can improve my level.

You can rely on my dynamism and my motivation to carry out this internship which represents a real chance for me.

I would, therefore, be very grateful if you would consider my request for a placement and certify you that I will do my very best to give you satisfaction. Please find enclosed my Curriculum Vitae.

I am looking forward to hear you for your consideration.

Yours faithfully.

Amandine GRENOT  
Student
